

CUSTOM MEDIA WALLS

Built Around *How You Live,* Watch & Gather

From clean, modern accent walls to fully bespoke, gallery-level installations — explore three tiers of media wall design, each built with quality materials and thoughtful craftsmanship for Winnipeg homes.

Three Ways to Transform Your Space

Every media wall we build starts with the same question: how do you actually want to use this room? From there, we shape a design around your TV, your storage needs, and the finishes that fit your home. Below are our three collections — each a starting point, not a limit. Every project is customized to your space and budget.

I

The Standard Wall

\$3,000 – \$4,000

A clean, modern accent wall with integrated lighting, floating shelving, and a professionally mounted TV. Elevated, functional, and built to last.

II

The Premium Wall

\$5,000 – \$6,000

Built-in electric fireplace, custom millwork, and layered lighting design across premium finishes — for a true feature wall centrepiece.

III

The Signature Wall

\$6,000 – \$10,000

Fully bespoke, from concept to install. Bring us your Pinterest board — we bring it to life with mixed materials and a fully tailored layout.

01

CONSULTATION

We visit your space, discuss your vision, and take measurements.

02

DESIGN

A tailored layout and material plan built around your room and budget.

03

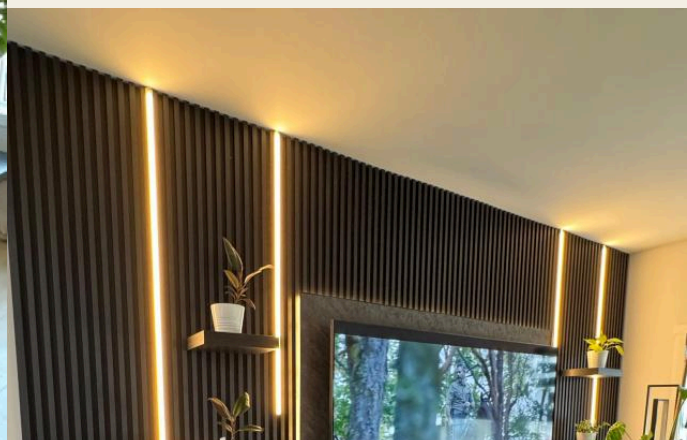

BUILD

Skilled installation with premium materials and clean, precise finishing.

04

REVEAL

A finished feature wall ready for movie nights, guests, and everyday life.

The Standard Wall

TIER ONE

\$3,000 – \$4,000

STARTING INVESTMENT

"A refined upgrade that transforms the room without overhauling it."

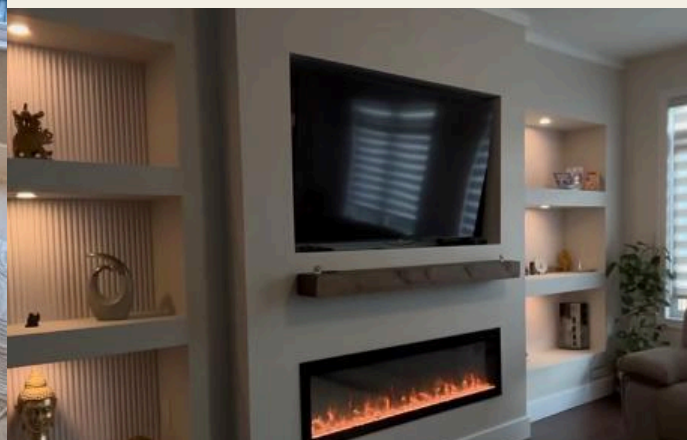

The Standard Wall is our most popular entry point — a clean, contemporary accent wall built around your TV. Wood-slat panelling, warm integrated LED lighting, and floating shelves come together for a look that feels custom, without the full remodel.

This tier is ideal for homeowners who want to modernize a living room, basement, or bedroom with a real design upgrade — fast to install, and built to a high standard of finish.

WHAT'S INCLUDED

- Wood-slat or panelled accent wall
- Professional TV mounting & cable concealment
- Integrated LED accent lighting
- 1–2 floating shelves
- Choice of stain or paint finish
- Full design consultation & install

Best for: living rooms, basements & bedrooms needing a modern refresh on a defined budget.

The Premium Wall

TIER TWO

\$5,000 – \$6,000

STARTING INVESTMENT

"The centrepiece of the room — built to be lived around."

The Premium Wall raises the ceiling on finish and function. A built-in electric fireplace anchors the design, framed by custom millwork, richer materials, and a layered lighting plan that gives the whole wall depth day and night.

Everything is built-in and tailored to your space — no off-the-shelf units, no visible seams. This is the tier for homeowners who want their media wall to be the room's focal point.

WHAT'S INCLUDED

- Everything in the Standard tier
- Built-in electric fireplace
- Custom millwork & built-in cabinetry
- Premium finish options (stone-look panel, matte lacquer, veneer)
- Layered lighting: cove, shelf & accent
- Built-in open display niches

Best for: primary living rooms and family rooms meant to be the home's main gathering space.

The Signature Wall

TIER THREE

\$6,000 – \$10,000

STARTING INVESTMENT

"Bring us the inspiration photo. We'll build the real thing."

The Signature Wall is fully bespoke — no template, no package. If you've been saving Pinterest boards or Instagram reels of a wall you love, this is the tier where we recreate that vision in your actual home, matched to your room's proportions and your budget.

Expect a mix of premium materials — wood slat, painted millwork, stone-look surfaces, and sculptural lighting — combined into a one-of-a-kind design built only for you.

WHAT'S INCLUDED

- Everything in the Premium tier
- Fully custom design from your inspiration
- Mixed premium materials & finishes
- Full-height & multi-wall configurations
- Bespoke shelving, niches & display zones
- Dedicated design revisions until it's right

Best for: homeowners with a specific vision who want a true signature centrepiece.
